

STEPHANO

Integrated Services Ltd

INTRODUCTION

Stephano Integrated Services Limited (SISL), RC 1539784, established April, 2018 and registered in Nigeria, November 2018, is a company offering a diversity of services to meet new and emerging demands within the power infrastructure and oil and gas industries.

Though SISL is a newly registered company, the company leverages on the vast experience of its founder, Dr. (AMBP) Stefano Piotti – with over 35 years of experience in the contracting, energy, oil & gas and power sectors out of which he spent 20 years in Nigeria, and its staff.

Our Mission

*TO BRIDGE BETWEEN
NIGERIA AND THE REST
OF THE WORLD SO AS TO
EFFECTIVELY OFFER
WORLD CLASS SERVICES
TO OUR CLIENTS*

VISION

TO BECOME WITHIN THE NEXT FIVE YEARS, THE MOST RELEVANT OIL AND GAS AND POWER INFRASTRUCTURE CONSULTING SERVICES COMPANY IN NIGERIA

Our Core Values

Transparency

Integrity

Professionalism

OUR SERVICES

SISL is strategically positioned to address the needs of businesses through the provision of the following services

Business Development

Media and Marketing

Contract Administration

Manpower Services

Project Management

Procurement & Logistics

Financial Consulting

Installation & Maintenance

General Management Services

A photograph of an industrial facility, likely a refinery or chemical plant, featuring large white storage tanks, complex piping, and structural steel frameworks under a clear blue sky. A semi-transparent white circle is overlaid on the left side of the image, containing text.

Business Development

- Sourcing and consolidating technical and financial partnerships to strategically position businesses in order to maximize opportunities and profits.

Contract Administration

- SISL services include: main contract agreements, sub-contract agreements, bid preparation, claims preparation and representation, contract negotiations and close-out, contract interpretation, compliance and execution, mergers, acquisitions, divestment, representation in advisory role.

PROJECT MANAGEMENT

- Advisory Services on the best companies set-up and collaborations for project implementation.
- Establishment and management of a formalized Integrated Project Delivery (IPD) approach for start-ups, new projects, upgrades, developmental and enhancement projects.

Financial Consulting

Sourcing and consolidating technical and financial partnerships to strategically position businesses in order to maximize opportunities and profits.

Media and Marketing

- Serving the downstream, midstream and upstream sectors, our creative marketing solutions is engineered to help our clients build their brands in order to create, deliver and capture value for their customers.

SISL offered services include:

- Marketing information systems

- Print, audio-visual and digital media marketing solutions

Manpower Services

In Association with our partner agency Covenant India we are able to provide top notch manpower supply services.

Our Team around the world comprises of a large and wide database of both nationals and expatriate personnel in engineering, project management, contract management, and all technical roles.

Services offered include:

 *Recruitment, skill assessments,*

 *medical evaluations*

 *Training and certifications,*

 *Administration; documentations, insurance*

 *Travel & accommodation, logistics*

 *Payroll, scheduling and reporting*

Procurement Services

Despite the fact SISL has been recently incorporated, the company can offer excellent procurement services counting on a number of combined and synergic factors that can guarantee the fulfilment of the whole procurement cycle from :

- ❖ sourcing,
- ❖ vendor qualification,
- ❖ issuance of RFQ ,
- ❖ technical and commercial evaluation and compilation of offers,
- ❖ order placement

Monitoring and expediting of :

- ❖ production,
- ❖ shipment and customs clearance,
- ❖ and delivery to the customer.

For selected customers financial facilities can be put in place to ensure that financial obstacles are overcome.

Procurement Services

Some of our International associates involved in our procurement systems are –

- Sicom: for a large network of worldwide suppliers
- STP : engineering services and technical evaluation of the vendors.
- Samic : for specialized components and technical evaluations
- Sodai: engineering services and technical evaluations

In addition to this is a network of local and international seasoned professionals for consultancy and advisory services.

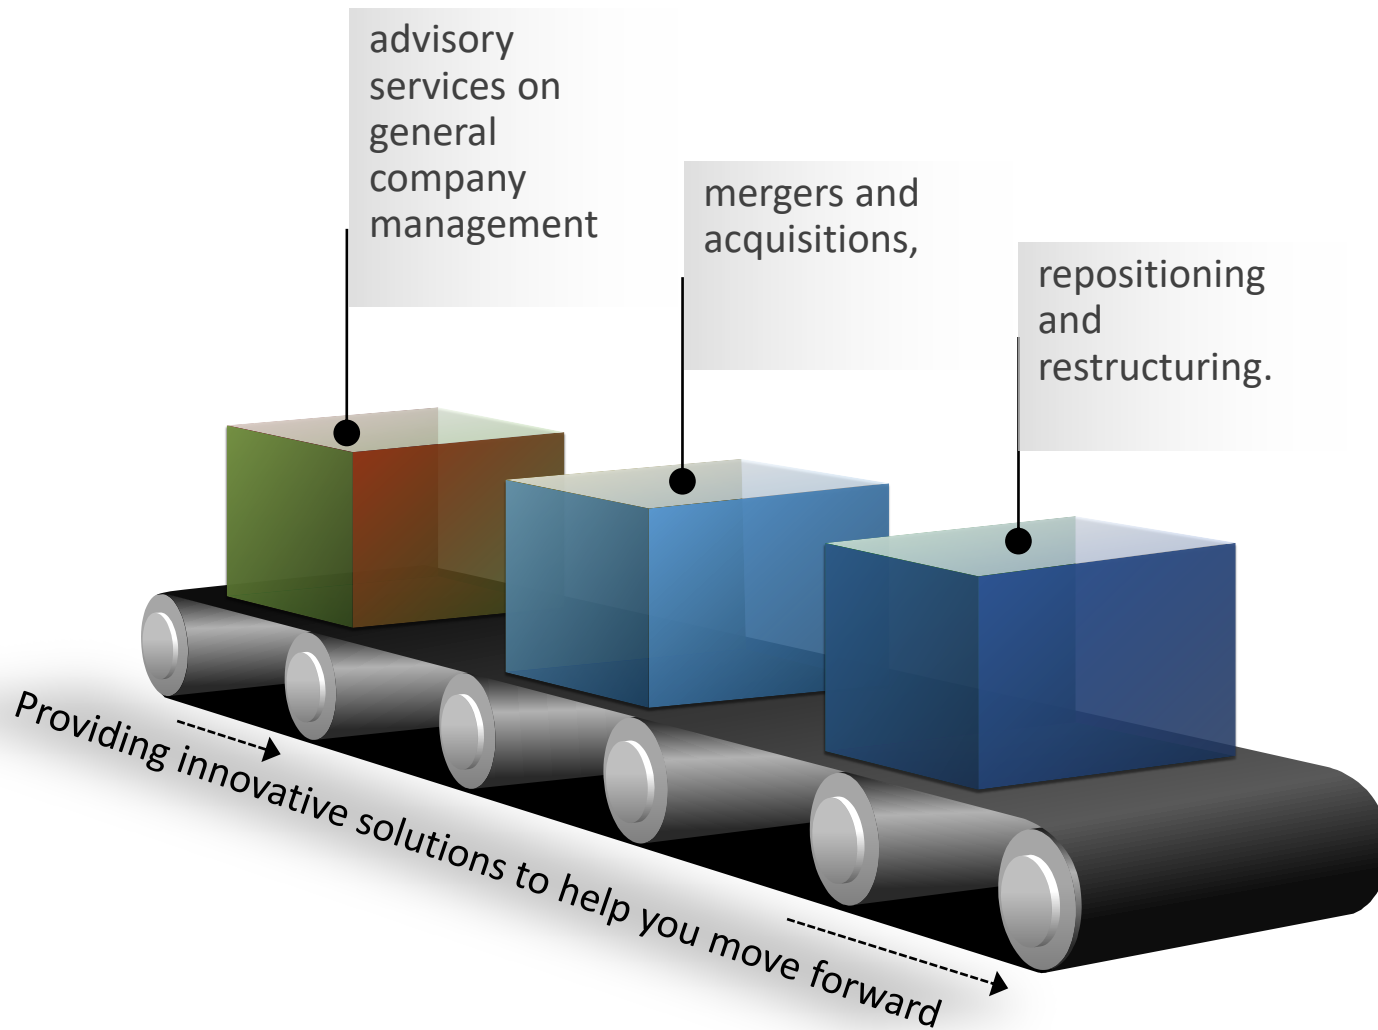

Installation and Maintenance Services

- We also offer services ranging from minor works in well services and general facilities maintenance, both with own resources and in collaboration with our international technical associates and local partners in the following areas:

- Mechanical installation, maintenance and material
- Electrical installation, maintenance & materials
- Technical services to include cold cutting, hot tapping, PWHT

- General Management Services

Design, Realization & Assembly of Industrial Plants

SISL – AGENT NIGERIA

The guiding principles of SAMIC, ever since its establishment, have been innovation, organization, technology and professionalism. For over 50 years it has operated and specialized in the construction and assembly of industrial plants, dedicated to the quality of its finished products, the development of its facilities and constant investment in professional improvement and specialization of its employees. Samic boasts ultra-modern equipment and production areas adequately dimensioned for high vertical assembly of components and the realization of installations of considerable size and complexity. Its production area occupies over 7,000 square metres of a total area of about 20,000 square metres.

Departments

- Engineering : use of the most advanced information technologies and engineering, design and 3D modelling software.
- Mechanical machining: machining centres, boring machines, lathes and radial drills
- Metal carpentry: folding presses, cutters and cold calendaring machines up to thicknesses of 80 mm
- Welding: automatic, semi-automatic and manual welding for the latest technological processes
- Final assembly:
- Finishing: sandblasting, coating, painting and thermal treatment.

Business Areas.

SAMIC main products are:

VESSELS & EXCHANGER

Projected according to: ASME, TEMA, AD MERKBLATT, BS, VSR ISPELS, PED and more.

COMBUSTION CHAMBER

SAMIC produces complete combustion chambers (with or without secondary air) with components such as:

- Shell
- Covers
- Flametubes with fire-proof support and fire proof bricks
- Frames for flametubes
- Mixing chambers with a transition ring
- Gas distributors
- Feeding pipes.

COMPONENTS FOR UREA, METHANOL AND AMMONIA PLANTS

are built with:

- Special internals for reactors
- Rod Baffle

- Assembly of plate heat exchangers
- Interconnection pipes
- Cartridges.

BOP (Balance of Plant)

SAMIC makes:

- Complete projects
- Piping
- Vessel/heat exchangers
- Structures
- Skid additives
- Electro-Instrumental
- Insulation
- Surface treatment
- Assembly on site.

TURBINE SPARE PARTS

SAMIC produces:

- Hot gas
- Inner liner
- U-duct
- Heat shields
- Vane carrier.

PIPING

SAMIC also produces:

- Standard and special pipes
- Main Steam Pipes

- Water feeding pipes
- Evaporators
- Superheating Plates
- Energy Savers.

SKID

SAMIC produces:

- Complete projects
- Pipes
- Pressure Vessels
- Heat exchangers
- Electro Instrumental
- Insulation
- Frames

MATERIALS

- Carbon steel
- Low Alloy Steel
- Stainless steel
- Austenitic/ferritic/martensitic
- Nickel Alloy
- Copper Alloy
- Titanium

SODAI
PRESENTATION

OVER 30 YEARS EXPERIENCE IN WATER & WASTEWATER TREATMENT

ITALVECO, an Italian holding company operating in the field of water industries. In 2011, ITALVECO acquires SODAI an Italian engineering company operating in the field of primary and process water treatment solutions as well as in the wastewater depuration for industrial, private and municipal users until the recovery and reuse of water.

Our standard plants provide quite evident economic benefits in:

- **Potabilization of surface waters** (rivers, lakes and so on) with maximum capacity per unit: 1400 m³/day of processed water.
- **Potabilization of brackish water**; maximum capacity per unit: 1000 m³/day of processed water.
- **Potabilization of sea water** based on reverse osmosis and energy recovery; maximum capacity per unit: 700 m³/day of processed water.
- **Industrial water treatment (demineralization or other treatments)** with micro-filtration, ultra-filtration, nano-filtration and reverse osmosis.
- **Water purification of municipal and industrial water** for small or medium sized communities.
- **Waste water treatment.**

INDUSTRIAL FIELD: Chemical, Oil & gas, Power, Pharmaceutical and Cosmetics, Food & Bev., Marine, etc. for both fresh and wastewater.

- Skid Mounted & Containerized solutions

- Whole treatment plants from green field

MUNICIPAL FIELD: drinking and waste water plant.

- Drinking water (surface, brackish and sea water)

- Wastewater - https://www.youtube.com/watch?v=BU3_i_cH9Uk

SISL – AGENT NIGERIA

Sicom Italia is an Italian company that supplies Piping products in steel & special alloy steel materials for the energy, petrochemical, gas, oil, chemical and naval fields.

The "value" of the offered service, both for quality and for specialty of products, has always been the first target of SICOMITALIA, as well as having its own system of guarantee and quality certificate ISO 9001/2008 n. IT240536BV.

Reliability, quality, competence, combined to the most various range of piping offered, makes our company the best choice for demanding customers.

SICOM

ITALIA

THE SOLUTION TO ALL PIPING PROBLEMS

PRODUCTS

- Seamless and Welded pipes
- Casing, Tubing and Well Heads
- Seamless and Welded BW fittings
- Forged fittings
- Flanges
- Gaskets
- Stud-bolts & nuts
- Forged and Cast Valves
- Insulating joints
- Flow & Temperature Control & Measure Group
- Special Prefabricated Products

MARVAL MANAGING

SISL BUSINESS DEVELOPMENT ASSOCIATE

COMPANY PROFILE

Marval Managing has its headquarters in La Spezia/Italy and secondary office in Siracusa, Italy.

Marval Managing is a business consulting company acting as a support to Italian and European companies and provides them with commercial and technical assistance.

Marval Managing was founded in January 2017 in order to find Italian companies that want to develop their business abroad, so that they can be coordinated in marketing and commercial field.

The need for a company to be founded in Italy in order to operate in strict connection with our structures abroad is the result of our work carried out in the last years in terms of knowledge of the local markets, technical/commercial ability as well as the acknowledgement of our reliability by the Buyer and our European clients.

Our organization operates abroad through the support of some Partners and their structures in Nigeria, Morocco, Oman, Saudi Arabia and Bahrain.

We support our clients in the following fields of interest:

- Oil & Gas
- Power plants
- Water and wastewater treatment
- Waste
- Demil

COVENANT CONSULTANTS

India's Leading Staffing Company

Covenant is a premier Executive Search and Recruitment Firm with 500 Full-Time Recruitment Consultants and a strong presence across the globe. We are specialists in the arena of Human Capital with our service unmatched in all metrics - Turnaround Time, Unceasing Availability, Cost-Effectiveness, Steadfast Quality of Service, provided by a team of Principal Consultants and Analysts who will work alongside you with a commitment to perfection. Our experience of working globally has helped us acquire a multicultural Candidate and Client base catering across all Industry Practices. Trust, Integrity, Equity and Quality in every deed, this mission ethos are our driving principles.

INDUSTRIES WE SERVE

- ❖ TECHNOLOGY & COMMUNICATION
- ❖ E-COMMERCE
- ❖ OIL & GAS
- ❖ CONSTRUCTION & INFRASTRUCTURE
- ❖ ENGINEERING & MANUFACTURING
- ❖ RENEWABLE & NON-RENEWABLE
- ❖ AUTOMOBILE & AUTO ANCILLARIES
- ❖ RESEARCH & ANALYTICS
- ❖ BANKING & FINANCIAL SERVICES
- ❖ SALES & MARKETING
- ❖ ITES (BPO/KPO/LPO)
- ❖ BUSINESS SUPPORT FUNCTIONS

Advance Engineering Consultant

Company Profile

OUR OFFERING TO THE NIGERIAN MARKET. BRIEF SUMMARY

1. Based on our previous extensive experience in Nigeria we offer Bidding services for complex Multidisciplinary Small, Medium and Large EPC projects
2. We also offer international procurement services in India and far East, based on your clients approved vendor lists. Our services include technical and commercial tabulations, expediting, progress report, FAT attendance ,shipment
3. Our Engineering Services include: FEED, basic and detailed design and any other engineering support services that may be required by our customers to be executed both in Nigeria or in India.

ADVANCE ENGINEERING

STRUCTURAL CONSULTANT

Advance Engineering Consultant (AEC) is a company engaged in consultancy in Civil ,Electrical ,Mechanical ,HVAC,Telecom and Instrumentation engineering. AEC was established in 1999 to develop consultancy services in India, Asia & Africa. The objective of AEC is to introduce the latest techniques, and to provide professional consultancy in multi-disciplinary areas of structural engineering, bridge engineering, highway engineering, traffic and transportation engineering, water resources engineering environmental engineering and engineering management.

The foundation of AEC's success is built with talent and capability of its professional staff. Lasting success does not come up simply with the award of a consultancy work, but with consistent high quality performance of a wide variety of technical and managerial tasks throughout the life of a project. AEC's recognition of this fact has enabled them to solve minor as well as major problems for our clients. The company is committed to quality service in the most effective manner.

AEC through its experience of more than two decade has acquired capabilities to undertake projects in different disciplines.

Sectors

- Oil & Gas
- Industrial Structure/PEB

OUR POLICIES

Keys to Success

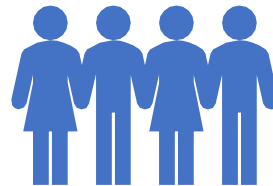

QUALITY MANAGEMENT
SYSTEM

CORPORATE SOCIAL RESPONSIBILITY

SISL is currently engaged in various CSR projects and activities, with over a hundred beneficiaries through skill acquisition, medical interventions, scholarships, talent promotion, trainings, business sponsorship, self-employment and empowerment programs to Nigerian youths.

EQUAL OPPORTUNITY

SISL is committed to an employment policy in which individuals are selected and treated on the basis of their relevant merits and abilities without regard to race, ethnicity, religion age, gender, marital status or disability to ensure all job applicants and employees are given equal treatments in accordance with good employment and work place practices.

NIGERIAN LOCAL CONTENT

SISL is committed to full compliance with the Nigerian Local Content act and fully promotes knowledge transfer between the rest of the world and Nigeria.

HEALTH, SAFETY AND ENVIRONMENT

The HSE objective of SISL is the attainment of zero LTI, zero incidents, not just during contract executions, but in the company's daily activities. SISL considers safety to be of paramount significance and importance. The undermining of which can endanger lives and security.
